Take Action Now: Florida Needs to Halt Their Investment in Predatory Manufactured Housing Community Owners!

The Florida State Board of Investment has millions of our taxpayer money invested in Equity Lifestyle Properties, SUN Communities and UMH Properties. We are concerned these investments don't reflect the stated values of the Florida State Board of Investment given the adverse impact these large corporate owners have on thousands of manufactured home owners. Families in communities owned by these companies are being pushed to the brink due to escalating rents and disregard for needed capital improvements in their communities. We are asking, for the sake of our families and our communities, that the Florida State Board of Investment reconsider these investments. Thank you for your time and attention to this important manner.
