

Take Action Now: Alaska Needs to Halt Their Investment in Predatory Manufactured Housing Community Owners!

The Alaska Division of Retirement and Benefits has thousands of our taxpayer money invested in SUN Communities. We are concerned this investment does not reflect the stated values of Alaska Division of Retirement and Benefits given the adverse impact this large corporate owner has on thousands of manufactured home owners. Families in communities owned by SUN Communities are being pushed to the brink due to escalating rents and disregard for needed capital improvements in their communities. We are asking, for the sake of our families and our communities, that the Alaska Division of Retirement and Benefits reconsider this investment. Thank you for your time and attention to this important manner.
