

Take Action Now: California Needs to Halt Their Investment in Predatory Manufactured Housing Community Owners!

The California Public Employees' Retirement System and California State Teachers' Retirement System have millions of our taxpayer money invested in Equity Lifestyle Properties, SUN Communities and UMH Properties. We are concerned these investments don't reflect the stated values of the California Public Employees' Retirement System or California State Teachers' Retirement System, given the adverse impact these large corporate owners have on thousands of manufactured home owners. Families in communities owned by these companies are being pushed to the brink due to escalating rents and disregard for needed capital improvements in their communities. We are asking, for the sake of our families and our communities, that the California Public Employees' Retirement System and California State Teachers' Retirement System reconsider these investments. Thank you for your time and attention to this important manner.
