

Take Action Now: Utah Needs to Halt Their Investment in Predatory Manufactured Housing Community Owners!

The Utah Retirement System has hundreds of thousands of our taxpayer money invested in Equity Lifestyle Properties. We are concerned this investment does not reflect the stated values of Utah Retirement System given the adverse impact this large corporate owner has on thousands of manufactured home owners. Families in communities owned by Equity Lifestyle Properties are being pushed to the brink due to escalating rents and disregard for needed capital improvements in their communities. We are asking, for the sake of our families and our communities, that the Utah Retirement System reconsider this investment. Thank you for your time and attention to this important manner.
